# KZ-B18 (MicroSD FPC Extender)

Introduction:

KZ-B18 Micro SD card Extender is a debug and test tool. Design the FPC cable for flexible use.
It allows a Micro SD Card to be extended from the host slot for SD interface.
It's especially designed to save valuable labor and time in the production environment. The MicroSD extender is designed to minimize the signal degradation effects of the extender by proven design techniques.
It's also a powerful tool for engineers, or use for mobile phone micro SD test protection.
