

USB Test Fixture

(5V to 5V/3.3V)

The USB Fixture is a test tool for USB interface with multi-functions of voltage switch, voltage test and current test. It's especially designed to save valuable labor and time in the production environment.

The USB Fixture is constructed of high quality components for years of trouble free service.

Different switch and jumper can perform different function.

Function

- Alternative Output Voltage: 5v to 5v/3.3v
- Voltage can be tested conveniently and directly
- Current can be tested conveniently and directly
- External power supply

Product Specifications

Dimension: Width 65mm Length 18mm
Thickness 1.0mm

As professional distributor of semiconductor, our business includes main NBPC and Cellular phone's manufacturer in the world wide. We provide strong support with multi-channel resource.
